Work Experience

Front End Developer Intern	VAUX (Brisbane, Australia)	Dec, 2020 - Feb, 2021
----------------------------	----------------------------	-----------------------

Project Technology Demonstration

- Built a custom audio player and waveform visualisation for an audio compression and noise reduction deep learning model, to make it easier to pitch to investors. It was pitched to around 30 Deep Tech Venture Capital firms in Australia, the US, UK and Japan.
- Technology stack: HTML/CSS, JavaScript and Wavesurfer.js.

Project Website Revamp

- Restyled the company's landing page to make it more appealing to B2B enterprises.
- Technology stack: HTML/CSS, JavaScript, Amazon S3 and GitLab CI/CD.
